13 July 2010

TO: BSA Council

FROM: Roger D. Meicenheimer, Chair 2010 Moseley Award Committee

RE.: 2009 Moseley Award Committee Report

The 2009 Mosely Award Committee consisting of Chair Bonnie Jacobs (Southern Methodist University), Roger Meicenheimer (Miami University), and Gar Rothwell (Ohio University) judged 15 student presentations in Paleobotanical and Developmental and Structural sessions at the 2009 annual BSA meetings in Snowbird, Utah. The committee gave the Mosely Award to Erin Bissell, Department of Ecology and Evolutionary Biology, University of Colorado for her paper, “Modular genetic architecture of floral morphology in Nicotiana: comparative phenotypic and quantitative genetic approaches to floral integration.”

The composition of this years committee is Roger Meicenheimer (Chair), Gene Mapes (Ohio University), Stefan Little (UC, Davis), and Tatyana Livshultz (Academy of Natural Sciences of Philadelphia). We look forward to judging 14 student papers at the 2010 annual BSA meetings in Providence, Rhode Island.

Respectfully submitted on behalf of the committee,

Roger D. Meicenheimer
