

2022 Annual Report of the Tropical Biology Section

A Summary of the Section's Activities in 2021

We had a contributed paper session with five papers and five posters.

Business Meeting

We had a brief chat session.

Plans for 2022: We will have contributed paper session this year and associated posters, scheduled right before our business meeting. We hope that all members of the Section will try to attend the Section business meeting and/or plan to submit a symposium or colloquium proposal for our Section for Botany 2023.

With our best wishes for a productive year, and looking forward to seeing you virtually,

Margaret Devall, Travis Marsico and Suzanne Koptur
