Augustin-Pyramus de Candolle Prize in 2023

THE AUGUSTIN-PYRAMUS DE CANDOLLE 2023 PRIZE

The Société de Physique et d'Histoire Naturelle (SPHN) of Geneva is pleased to announce the award of the **Augustin-Pyramus de Candolle Prize** in 2023. This prize recog- nizes the author of the best treatment of a taxinomic group of plants, algae or fungi. The intent of the prize is to encourage and foster the publication of monographic treatments in vegetal taxonomy, preferably by scientists still in an early stage of their career.

The submitted work should be a complete coverage of the treated group, namely its arrangement in a system of hierarchical classi cation. It should follow the integrated taxinomy approach, including descriptions of morphological and anatomical characters, physiology, chemistry, ecology and molecular phylogenetics. Complete bibliography, crit- ical synonymy and identi cation keys are required. The work should comply with the International Code of Nomenclature (2018 - Shenzen Code).

The work may consist of a single monograph or of a series of papers on the same group. In this case, the candidate must be the author or the rst author of the phylogeny and taxonomy sections. Submitted works should be unpublished or published after April 30th, 2019.

The prize is open to researchers of all nationalities. The text, however, must be written in French, English, Spanish or Portuguese. A summary of the monograph, of no more than 4000 words, must be written in English or French.

The work should be submitted to the Secretary of the prize, along with its summary and the author's curriculum vitae, before Monday October 31st, 2022, as electronic les uploaded at the following address https://www.swisstransfer.com/fr-fr or as printed documents (two copies) sent to the following address:
